### A Healthy Mind + Mouth Forms Positive Action & Words

#### **ACT + ACRE: GUA SHA SCALP KITS**

Founded by celebrity hair stylist Helen Reavy, Act + Acre couldn't find any clean hair care products that worked, so she created the world's first Cold Processed® hair wellness brand that focuses on your scalp. Sustainability is key to the brand, through the packaging, ingredients, and use of 90% less energy to create their products through the wind farms they fund in Mumbai.

#### **MINTLY: TOOTHPASTE TABLETS & ECO-FRIENDLY TOOTHBRUSHES**

After spending years working in the consumer products world, founder Katie Omstead became super familiar with the sustainability challenges plaguing personal care, with oral care standing out as a category lagging behind in eco-friendliness and innovation. She dove deep into the oral wellness category and realized there was not only an opportunity to clean up the ingredients and make more earth-friendly packaging, but also to incorporate proven ingredients like fluoride and clinically-backed probiotics into modern formats to make oral care that is good for you, your body, and the biosphere.

## Indulge & Unwind

### **OTHERLAND CANDLES**

Founder Abigail Cook Stone started out as an art buyer for Ralph Lauren, and after traveling the world in search of treasures to adorn the brand's stores and restaurants, she decided it was time to launch her own new venture. Abigail earned her MBA and hatched the idea for Otherland, which brings the energy of art, design, and fragrance to every moment at home.

### **POMP & WHIMSY: BOTANICAL GIN LIQUEUR + IN-SUITE COCKTAILS**
